VibPbfList

Represents the results of a series of measurements as a table or a graphic

- Event selection with explorer or with a comfortable file select tool
- Generates to a spreadsheet with the selected events for off-line processing with Excel
- Generates a velocity vs frequency chart graphic
- Notifies the related data from the event under the cursor
- Individually design of the graphics is possible
- Shows limits for national standards
- Predefined standards for different countries (SN 640 312a, DIN 4150, ÖNORM S9020, BS 7385, User-defined)
- Saves graphic to clipboard or as emf or pdf file
